<b>DESCRIPTION:</b>	LBT Sunrise Towers is a Functional Landmark lot based only in my imagination. This is only a Plop Version, I don't like to wait for the buildings to grow, that's why I only did this to Plop. It will look good in your downtowns or midtowns. Enjoy!
<b>COMPATIBILITY:</b>	This download is only compatible with SimCity 4 "Rush Hour" or SimCity 4 Deluxe.
<b>INSTALLATION:</b>	Copy the folder: "LBT Sunrise Towers by TCX" to your Plugins Folder. To un-install the files, simply bulldozed every lot from this download in your cities and erase the files from the plugins folder.
